This unique experience will give you the opportunity to explore Montessori materials from Early Childhood through High School, providing a visual understanding of the progression of the curriculum. You'll see how materials evolve as children grow, how they are presented and used at different age levels, and how they are thoughtfully designed to foster independence, concentration, and a lifelong love of learning. Childcare is available if you have no other option.

PICTURE DAYS!

Students will have their school photos taken at the Warm Springs campus on 9/16 and the Sunset campus on 9/17.

Montessori **AT HOME**

We had a wonderful evening recently talking to families about ways to implement Montessori into their homes. We wanted to share some strategies with you to help build a school - home connection by implementing the Montessori philosophy in your home environment. We encourage parents to create an orderly, child-sized environment with accessible, open shelving for age-appropriate materials and tools. Focus on a calm, clutter-free space with natural elements to foster independence and concentration. Encourage practical life skills by providing real tools for cleaning and food preparation, and offer limited, rotating choices for activities. Help children become active participants in the care of the home by learning from watching you and through your guidance with step by step practice. Foster independence by allowing them to do things for themselves, and be a patient, observant role model. You can extend Montessori principles into the home by involving children in food preparation, encouraging nature exploration, and reading books with realistic themes. We invite all families to create a peace area in an accessible space at home where children can use the peace rose (a plastic flower) to share feelings and look for solutions to problems, as well as have peaceful activities like a zen garden or a puzzle so that they can use the space whenever they feel the need. We have attached a few articles to support you as you prepare your Montessori home environment.

LEAGUE SPORTS

Join us to watch games for our 1st to 3rd grade flag football team - watch for the schedule coming soon. No other fall sports had enough interest to form a team but we hope you join us for winter and spring sports.

purple star school

We are so excited to be a Nevada Purple Star School!

As part of our Purple Star School initiative, we are implementing a buddy system for military families. We will partner new military families with existing military families for additional support. If you are a military family and would like to participate or be partnered with another military family, please see the front desk.

Join us at the PTO Picnic on 9/12 to welcome military families at the table with a purple tablecloth.

COMMUNITY OUTREACH

We are honored to participate in a school-wide outreach program for the 26/27 school year. Each month one class will help make 300 lunches for impoverished people in the Las Vegas community. Students will prepare the lunches during the school day, and teachers will deliver the lunches to Las Vegas Catholic Worker after school who will distribute the lunches to those in need the following morning. Please fill in this [form](#) and return to the office prior to your child's classroom's turn to participate.
